The Sylis Group has finalised the acquisition of 100% of Profinity, a Dutch IT Service Provider based in Woerden, the Netherlands. The takeover comes into effect in January 2006, and allows Sylis in the Netherlands to increase its revenues by more than 50%.

In 2005 Profinity generated a revenue of € 10 Million ; It offers Microsoft centric services, storage solutions and is Citrix Gold Partner.

Adding the Profinity activities will strengthen Sylis Netherland's position as a leading provider of Microsoft centric services and solutions and will create a more effective platform to further develop the business in the Netherlands. The acquisition of Profinity also provides Sylis Netherland with an entrance into the growing storage solutions market, which is a logical addition to the current portfolio of services.

Today, Sylis in the Netherlands employs some 350 people. The financial details of the transaction were not disclosed.

### *The Sylis Group*

*An IT services company set up in 1984 and listed on the Eurolist (c) of the Paris stock exchange since 1997, the Sylis Group, established in France and Benelux, is dedicated to offering its European customers a wide range of IT solutions. Founded both on the excellence of know-how in each of its main business lines and on the creativity of its abilities, Sylis offers a range of engineering services and high added-value consulting.*
